Chicago Valves & Controls

[®] Seat Materials

T-Virgin PTFE

Polytetrafluoroethylene is a Fluorocarbon-based polymer. This seating material has excellent chemical resistance and low coefficient of friction. Its temperature range is -100°F to 400°F (-73°C to 204°C). Color - white.

M-TFM° PTFE

Dyneon TFME * PTFE is a second generation PTFE with improved chemical and heat resistant properties and stress recovery. Its temperature range is -100° F to 500° F(-73°C to 260° C) Color-white.

R-Reinforced Polytetrafluoroethylene (RTFE).

PTFE's mechanical properties are enhanced by adding 15% filler material to provide improved strength, stability and wear resistance. Its temperature range is from -320°F to 450°F (-196°C to 232°C). Color-off-white.

XN - is a free-flowing compound based on TFME ^{*} containing electrographitized carbon. It features: increased thermal dimensional stability and surface hardness, improved deformation under load, reduced friction and wear, and good chemical stability. It has a high limiting oxygen index (LOI), low coefficient of friction, very good mechanical properties and exceptional temperature resistance. It is used as a seat material in chemical processing and automotive industries. It is ideal to with steam and thermal fluid applications up to 550°F (228°C) and as low as -40°F (-40°C). Color-black.

D-DELRIN

Provide excellent high pressure resistance with low torque, it can withstand pressure up to 6000 PSI (depending on valves size and class rating) Temperature limit to -70f - 180f

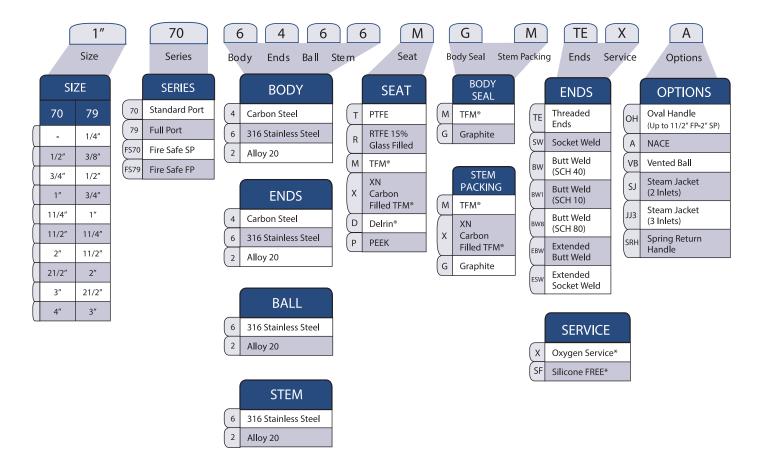

P-PEEK (Unfilled) Polyetheretherketone

PEEK Polymer offers a unique combination of chemical, mechanical and thermal properties. Excellent for water and steam application at elevated temperatures up to 600°F (315°C). Color - beige.

Other seat materials

Other seat materials are available according to the application, such as very high temperature or cryogenic conditions.

HOW TO ORDER SERIES 70/79

Toll-Free (833) 831-2312 Local (312) 637-3557 Fax: (312) 637-3543 E-Mail: sales@chicagovalves.com www.chicagovalves.com 885 Cambridge Dr. Elk Grove Village, Illinois 60007 U.S.A.

Due to ongoing development of our product line, specifications subject to change without notice. Teflon^{*} is a registered trademark of E.I. DuPont.
