LIMIT SWITCH BOX

NEMA 4, 4X IP 67

CLS 300-4X

CLS 300-4X

The CLS 300-4X limit switch is a rotary limit switch. It was designed to integrate valve and NAMUR 90°/180° pneumatic actuator or on manual valve with a variety of mounting options. The visual indicator on the top of the box can display the valve position.

DESIGN FEATURES

- Design complies with NEMA 4, 4X, IP67
- Dual ½ NPT cable entries
- NAMUR and ISO 5211 adjustable bracket
- Spring-loaded splined cams are easily adjustable without tools
- Stainless Steel Fasteners

TECHNICAL DATA

- Box Housing – Die Casting Aluminum
- Box Cover – Die Casting Aluminum
- Shaft – Stainless Steel
- Indicator Cover – Poly Carbonate
- Indicator Fasteners – Stainless Steel
- O Ring – NBR
- Conduit Entries ½ NPT
- Terminal Strip Contacts – 8
- Temperature -4°F - 176°F
- Mounting Brackets
Stainless Steel and Carbon Steel*
* Polyester Powder Coating
